AT RHINECLIFF AGAIN. MR. MORTON WILL CLOSE HIS COUNTRY

HOME NEXT WEEK. SUITE FOR HIMSELF AND HIS FAMILY EN-

GAGED AT THE HOTEL RENAISSANCE-HE WILL NOT TALK ABOUT HIS POLICY.

Governor-elect Levi P Morton left town yesterday morning on the 11 o'clock train for his country home Rhinecisf. His visit to the city was the signal for local and visiting statesmen to flock to his rooms on the second floor of the Fifth Avenue Hotel and a political and social levee was in progress all Friday evening and yesterday morning. Among the throng who crowded up to shake Mr. Morton's hand were not a few who were willing to enter the public ervice. Mr. Morton had a gracious smile and a handshake for every one.

The subject most talked about yesterday was a bill giving the Mayor of this city power to remove the heads of departments. In vain did the newspaper men try to get an expression of opinion Morton on this point. His private secretary, Ashley W. Cole, said yesterday morning that thus early on reform legislation for the

"It ought to be understood," said Mr. Cole, "that Morton is a most cautious and conservative man. That, perhaps, is his most prominent business characteristic. He has avoided, and will conthue to avoid as far as possible, making advance announcements of his intentions. What he does in regard to New-York City legislation will be done after mature deliberation, and it will be the right thing. He does not confide his intentions to any

Mr. Morton will be in this city again the latter part of next week. He has rented a large suite of rooms for the use of himself, his wife and daughters, at the Hotel Renaissance, No. 10 West Portythird-st. They will move in next week, and Ellers-lie will be closed for the winter. The Hotel Renaissance is a new family hotel. Across Forty ters, at the Hole temperature to the winter. The Hotel Herbile will be closed for the winter. The Hotel Renaissance is a new family hotel. Across Forty-third-st. from the hotel is the Century Club, the Academy of Medicine, and the Racquet and Tennis Club. Down Fifth-ave, a few blocks, are the Republican and the Union League clubs. It is said that the Mortons will keep their suite at the Renaissance until they get ready to go back to Ellersile next summer. Of course, Mr. and Mrs. Morton will also occupy the Executive Mansion at Albany after January, and it is possible that all his daughters may go there after that date.

Mr. Morton, when seen by a reporter, before leaving for Rhimceliff, said:

"I have nothing to add to the voice of the people, who have spoken so eloquently at the polls. While I believed all the time that the Republicans would win, I did not look for such an avalanche."

AND ANTI-WIGWAM PARADE.

A BIG TORCHLIGHT PROCESSION AND GREAT EN-THUSIASM IN THE XTH ASSEMBLY DISTRICT.

Republican and Anti-Tammany organizations of the Xth Assembly District and the Ninth Ward Republican Pioneer Corps united forces for a torchlight parade on the East Side last night, under the auspices of the Wide-Awake Republican The place of assembly was at the head-25 East Thirteenth-st. There were nearly 3,000 men in line, all wearing miniature roosters or brooms and many carrying banners, flags, etc.

SPLIT IN THE GERMAN REFORM UNION MR. SCHWAB AND OTHERS DISGUSTED WITH THE COURSE OF SOME OF THEIR COLLEAGUES.

The threatened withdrawal of Republicans from the German-American Reform Union has taken place Gustav H. Schwab. Arther Von Briesen, Percival Knauth and others, who have long been asatisfied with the controlling element in the inlon, sent in their resignations from the Executive Committee on Thursday. They will be followed by many others who, like them, have dissented from the attitude of the Ottendorfer faction, which, in the campaign, had shown willingness to unite with Tammany Hall on a plan for a union Democratic licket, intended to save that corrupt organization from the defeat which the people had decreed. This attitude was first rade plain at the Coleman House conference held a September, when Mr. Otter-dorfer refused to approve the Steckler resolution binding the Anti-Tammany organizations to oppose any candidate nominated or indorsed by Tammany Hall. Mr. Grace's sole representative at that conference, Colonel Robert Grier Monroe, also voted against the Steckler resolution. Subsequently both the State Democracy and the Ottendorfer-Ridder faction of the German Union were parties to the scheme for the nomination of Frederic R. Coudert for Mayor, with a Tammany indorsement.

It was not until this "deal" failed, through the capture of the Tammany Committee of Elght by the Grant-Straus "combine" on October 9, that Mayor Gilroy, who advocated the arrangement for putting up Coudert as the united Democratic candidate, gave up in despair, and nothing was left for Mr. Grace and his allies in the German Union but a

Grace and his ailies in the German Union but a complete change of front and the inforsement of the Committee of Saventy's ticket.

The resignations of Mr. Schwab and his friends will be accepted at the meeting of the Executive Committee to be held this week, and Mr. Ottendorfer, Herman Rieder, Dr. J. H. Senner and others of the Ottendorfer faction will be left in undisputed control of the organization.

One of Mr. Schwab's friends said yesterday: These resignations mean simply that we do not mean to be tied longer to the tail of Mr. Grace's kite. Otherwise, we might find ourselves landed in Tammany Hall should Mr. Grace decide that it would be 'good politics' to undertake the capture of that unsavory concern."

EXPENSES OF VARIOUS CANDIDATES. Albany, Nov. 10.-The following statements of election expenses were filed to-day with the Secre-

tary of State:

Charles F. Brown, candidate for Associate Judge of the Court of Appeals on the Democratic ticket, gave 550 to the State Committee and expended \$121 for printing and postage.

Sereno E. Payne, the successful candidate in the XXVIIIth Congress District, gave \$250 each to the Cayuga, Cortland and Ontario Republican County Committee, \$200 to the Yates Republican County Committee, \$300 to the Wayne Republican County Committee, and expended \$16 for printing and railroad fare.

REFORM DEMOCRATS RECKONING UP. MR. SHEPARD SAYS THERE WILL BE NO UNION OF THE BROOKLEN DEMOCRACY UNLESS IT REPRESENTS THE INTELLI-

GENCE OF THE PARTY. A meeting of the General Committee of the Reform Democrats in Brooklyn was held last evening to reckon up the results of the election, in which their candidates received about \$7,000 votes each. There was a large attendance in the Atlantic Avenue Athenaeum. Edward M Shepard, who presided, was greeted with hearty applause. He said that the organization had cast at least 20,000 votes, but some of them had not been counted. In view of the conditions prevailing, there was much en-couragement in the size of the vote. In regard to the local situation for the future, Mr. Shepard said that for Kings County the election next year would be far more important than this year's. The Mayor, District-Attorney, a County Judge, and new Justices of the Supreme Court would be elected, and the future of the county for years to come would be determined. Mr. Snepara said he proposed that there should be no harmony and unity of Democrats in Brooklyn unless it represented the virtue and intelligence of the county and the city.

It was decided to hold election district primaries to elect new members of the committee on Tuesday. December II. A committee of three was appointed to revise the constitution and bylaws of the committee and to report to the next meeting.

IT MEANS A CLEAN CITY GOVERNMENT. John Jeroloman, when asked by a reporter for

his views on the recent election, said:

This triumph of the people demands an honest government in the place of a criminal one—honest officials instead of dishonest and criminal officials; crime prevented instead of encouraged and protected; officials to take their choice, either enforce the law or go to State prison; contractors to comply with their contracts or forfeit the same and pay the damages. No stealing of street franchises or using the same without full compensation to the people; clean streets and clean departments all along the line; sinceures abolished, and all public officials punished for criminal neglect of duty, and for crimes and misdemeanors committed while in office, if the same are not outlawed when discovered, no matter who the offenders may be; punish bribegivers of the higher order; a thorough investigation into all the city departments, for the purpose of correcting the abuses, criminal and otherwise, and the punishment of all offenders.

Unless it means this, and much more, the victory of Tuesday last will have been in vain. his views on the recent election, said:

IT WILL BE THE TRUE BLUE CLUB.

The Morton and Saxton Club, which did good work in the XXIVth Assembly District during the recent campaign, has decided to continue in existence. Last night the members met at the old headquarters, Eighty-ninth-st, and Park-ave., to choose officers and decide on a post-election name. After officers and decide on a post-election name. After considerable debate on the relative merits of the Park Hill, the Empire, the Allegiance and the Phoenix, they finally cast a majority of votes for the True Blue. The "True Blue Republican Cimb" then elected John Harper president, James Christie first vice-president, Abraham H. Kalisch second vice-president, Dr. Percy E. Dowe secretary, Lloyd Collist treasurer, Paul Dickey financial secretary, and Alden C. Russell sergeant-at-arms.

ORGANIZED OPPOSITION TO HILLISM. A committee, consisting of ex-Secretary Charles

S. Fairchild, Edward M. Shepard, Charles Frederick Adams and Robert Widenman, appointed at a recent meeting of the managers of the Democratic Party Reform Organization, met at Mr. Fairchild's office, No. 46 Wall-st. yesterday afternoon to shape plans for making a permanent organization throughout the State in accordance with the manifesto published recently by Mr. Fairchild which declared hostility to the Democratic machine of the State. The proceedings of the committee's meeting were not given out last night, but Whidden Graham, Everett P. Wheeler's campaign manager, said that he unders ood a good deal was done toward perfecting an organization. The committee, he said, was in receipt of letters by the hundred from Democratic all over the State, urging the organization of a new Democratic party which would have for one of its cardinal principles opposition to Hilliam in politics. lished recently by Mr. Fairchild which

TELEGRAPH WIRES DAMAGED BY THE STORM The heavy storm in New-England on Monday night did great damage to the wires of the Western Union Company. Communication was cut off between New-Haven and Boston, and every wire east of New-Haven was lost. Between this city and Boston there are about six lines and about a hundred direct wires to Boston. Part of the American Union line was down between Stanwich, Conn. and Boston, and all the lines which follow the railroads east of New-Haven were in trouble. In

A large force of men was sent out to restore communication. About 400 men were at work yesterday and had succeeded in getting up all the wires on the New-Haven road between this city and New-Haven, and three wires between New-Haven and Hartford have been put into service. Vesterday morning there was still a stretch of about a hundred miles of the lines to be repaired. Nearly a week, it is thought, will be required in which to repair the damage done on all the lines. munication. About 400 men were at work yesterday

SHE WAS DRIVEN AROUND LONG ISLAND. The schooner Kennebec, which arrived at City Island on October 36 from Richmond, Me., with a cargo of lumber for Patchogue, L. L. came via Long Island Sound. After towing down through Hell Gate and taking a pilot on board, she passed out through the Narrows and headed for Patchogue. GOOD WORK APPRECIATED.

IID DISTRICT REPUBLICANS TO DINE WITH MR. DEPEW

HE WILL ENTERTAIN THE ELECTION CAPTAINS AND CANDIDATES AT THE UNION LEAGUE CLUB ON FRIDAY-THEY ARE CIVIC HEROES.

"Send him a copy of the proceedings of the Constitutional Convention," said Mr. Depew, as he wheeled around in his chair and handed a letter, which he had just opened and read, to his private

secretary, H. C. Du Val. replied that thoughtful and diplomatic man as he turned to his chief, "this gentleman has made no reference to the Constitutional Convenion in his letter."

"He hasn't, you say!" said Mr Depew, looking up with an air of surprise. "Why, of course not. What on earth was I thinking of? Send him a copy of the revised Constitution as ratified at the

polls last Tuesday That's what I meant." "But, sir," replied Mr. Du Val a second time, and inwilling to move away. "I can find no suggestion of a request in this letter for any such document. The writer says simply: I voted for Morton after reading your speech in Buffalo Saturday night. I am an office-holder in a small way in that town, and would like to return as early as possible and hope you will send me a pass."

"That's all right," continued Mr. Depew firmly, "do as I tell you, Du Val, and underscore that paragraph having reference to the acceptance of passes by public officials. Oh, that Constitutional Convention did glorious work. I tell you," he continued, turning to the reporter. "I had doubts whether I should ever live to see the day when such an amendment would pass, but my doubts are dispelled now, and the hungry army of applicants for passes will soon, as they say on the Bowery

A DINNER FOR ELECTION WORKERS.

"By-the-bye, talking of the Bowery brings to mind a project which we have on foot and which has been suggested by Teall, 'Ollie' Teall, you know. He did good work. All the arangements have been made for carrying out the idea. It is this: The forty-eight election district captains and the candidates for Assemblyman and Alderman in the Second District are to be my guests at dinner at the Union League Club. The dinner will be served in the theatre, and any members of the club who wish to be present may do so by paying the subscription price of the dinner. "I hope and expect that we shall have one of

the biggest evenings that we have ever had at that historic place. And why should we not? These brave fellows in that thickly populated region which clusters around Chatham Square rendered magnificent service to the Republican party during the recent canvass and on election day. There never before was such a large vote day. There lever before was such a little total polled for Republican candidates as there was in the Hd Assembly District last Tuesday. The Windsor Theatre, where I spoke the week before election, is in that district. And just think of the vote they rolled up!

"Last year, for example, Colonel John R. Felows, in running for the office of District Attorne on the Tammany ticket, received 11,200 votes, and Charles H. Murray, at present a Police Commis oner, received on the anti-Tammany ticket 1,25 votes. Compare that with the showing made last Tuesday, when the Tammany candidate for Recorder, Smyth, received only 4,538, while Goff, the Anti-Tammany candidate, had to his credit the astonishing total of 4.185. That was a decrease in the Tammany figures of nearly 7,000 votes, and an increase in the Anti-Tammany figures of nearly 2,000. Where on earth did the 11,50 votes that vs received come from last year, might be earth did the 5,000 and odd votes come from in McKane's district the same year out of a total

THEY DID GREAT SERVICE.

"Why, these men from the 11d Assembly District whom we are going to honor in the Union League Club on Friday evening have, to my mind, rendered as brave and courageous a public service in their as brave and courageous a public service in their way in the worst corner of New-York County as what Mr. Shepard and the other reformers did is we honor them, why shouldn't we recognize the

the worst corner of Kings County. Why shouldn't we honor them, why shouldn't we recognize the great service which they have rendered to the cause of honest government?

"The vote of Tuesday has shown that thousands of illegal votes have been systematically cast each year in the Hd District which were not cast this year, and which in all probability will never again year, and which in all probability will never again be cast. Isn't that a great gain? It is beyond doubt that the tremendous Tammany majorities in the past have had in them the hallots of at least Lose persons not entitled to vote. We may safely hope that under the new order of things elections hereafter in this great metropolis will be clean and honest. Then no symmbling will be heartd against the man who obtains the most votes, for we shall feel that it represents an honest expression of the popular will. You can see from this how thankful we ought to be for the work done by these brave fellows in the Hd District."

"Is there no other reason than that for this dinner at the Union League Club?" Mr. Depew was asked.

"Oh, yes," he replied, "there are many other reasons. Take, for instance, this generally accepted but mistaken notion that the Republican party is the party of aristocracy and that the Eremorerate party isn't. Of course, that is false. Lincoin, the rail solitier Grant, the tanner Garffield, the mule driver, and others whom I might name weren't aristocrats, were they." Mr. Depew continued with a smile. "And as to the statement," he continued, "about the Republicans being milliciaires and the Democrate workingmen. I might mention Governor Flower, for instance; Senator Brice, of Ohio; my friend William C. Whitney, and scores of others that come to one's mind. They have, as everybody knows, a dollar or two put by for a rainy day. There are as as many rich men in one party as there are in the other. Isn't the Manhattan Club, which is a Democratic headquarters, bigger and more costly than anything which the Republicans occupy in this city?

TIME WORKS CHANGES.

"But we want to have a little more comradeship than we have hitherto had. The present Chief-Justice of the Supreme Court of the United States said that the republic is opportunity; and, as we all know that truer words were never spoken, it is quite possible that some of these leaders of Republican politics in the Bowery may one day becom members of the Union League Club, while in the ups and downs of life some member of the Union

ups and downs of life some member of the Union League Club'—Mr. Depew paused for a moment and said, laughingty. No, I don't mean that. I mean a member of some other rich club might get in the soup' and be obliged to take up his residence in the llowery. See:

"What is the use of there being so much talk about the laborer's being as big a man as the millionaire on Election Day if we don't do a little something to show that he is as good and as big as he is after Election Day, too. To give a public reception to these forty-eight manly fellows before election would not do, but it is just the proper thing after election, and I feel confident that it will be a success. We will have speeches from these men and from some of our men, too, including, I hope, the Mayor-elect, General Horace Porter, Cornelius N. Bilss and others. Oh, we're in it with both feet this time, see?" and Mr. Depew laughed heartily.

feet this time, see?" and Mr. Depew laughed heartily.
"What about 'Tim' Campbell?" said the reporter. "Mr. Campbell's boast in a speech at No. 32 Essex-sit, the night before election was that he never lost an opportunity to elongate and prolongate the interest of all my constituents. You can't well leave Tim out?"

"Was he left out last Tuesday?" asked Mr. Depew. "He was," said the reporter. Then the president of the New-York Central and Hudson River Railroad said slowly and deliberately: "I am glad you mentioned about Tim. I will consult with 'Olile' Teall on that."

EARTHQUAKE SHOCK IN MICHIGAN. Benton Harbor, Mich., Nov. 10.-A shock of earth-quake was felt here early yesterday morning. Many persons were suddenly aroused. No damage resulted.

It is also recalled that Mr. Wilson was President Cleveland's personal choice for permanent chairman of the Chicago Convention; that he was the President's personal preference for chairman of the House Committee on Ways and Means, and that he was generally accepted as being the best-posted exponent of the President's views on the floor of the House.

BREAKING UP THE SOLID SOUTH ONE OF THE MOST GRATIFYING RESULTS OF THE GREAT REPUBLICAN TRIUMPH.

Washington, Nev. 10 (Special) .- One of the most interesting and significant results of the political the remarkable increase in the ratio of Republican the "Solid South." In the LIHI Congress the Republicans hold only six of the 127 seats and Democrats hold the remainder. The seats souri, one; North Carolina, one; South Caro-lina, one; Tennessee, two. In the same States. publican seems to have been counted out this year, the Republicane appear to have elected at least twenty-four members to whom certificates will not

bers in West Virginia, making a net gain of twenty-eight seats in nine States, all at the expense of
the Democrats.

This does not measure the full exteat of the Democratic losses in the South, where at least four
Populists have been chosen who will receive their
certificates of election. This leaves the Democrataonly eighty-nine members from the sixteen Southern
States—a net loss of thirty-two—and it is by no
means improbable that the seats of several of these
will be successfully contested by Republican and
Populist candidates on the ground of traid, indeed, the crop of election contests in the next
House of Representatives promises to be one of
the largest in the history of Congress. It has been
more than twenty years since the depoblicas carried as many Congress districts son, of Mason
and Dixon's line as they did on Tuesday.

MAYOR HOPKINS SAVED FOR A TIME. Chicago, Nov. 10.-Judge Scales to-day decided the long pending case of certain Republican leaders, involving George B. The case came up on a motion to dismiss the petition of the Republi The Court granted the motion, thus ending John S. CANVASSING THE RETURNS IN JERSEY CITY. There was an exciting time at the Hudson County Court House yesterday over the election returns, and many threats were made on both sides, but the Conard steamer Compania, has be ommon-sense of the leaders prevailed, and there was no outbreak. Not much progress was made was no outbreak. Not much progress was made with the canvass. There were twenty-five returns still missing, and John G. Fisher and Fredbrick Frambach, jr., the Republican candidates for County Clerk and Register of Deeds, obtained from Judge Lippincott a mandamus forbidding the can-

Judge Lippincott a mandamus ferbidding the canvassers to canvass the vote until the returns were at hand. The canvass of the Congress vote then went on until noon, when an adjournment was taken until 10 o'clock Menday morning.

Judge Lippincott subsequently made a second order, requiring the production of the ballot-boxes of the precincts from which returns had not been made, and the court officers prepared returns from the tally sheets, if the missing returns are not filed by Monday morning the court returns will be used, and the detellet officers will probably be indicated. Judge Lippincott's order requires them to appear before the Supreme Court on Tuesday and show cause why they should not be punished for contempt.

BYNUM STIRS UP A HORNET'S NEST. Indianapolis, Nov. 19 (Specia.).—Just before leaving here for Washington on Weinesday Congressman flynum was interviewed as to the charges current in the campaign that he had accepted money for the appointment of surveyor of the local port. He retorted by saying that he had been offered \$5.000 by one applicant and 20 per cent of the income by another, and that to get rid of the disgraceful scramble he had selected George Tanner, a reputable business man, who was not of the income by another, and that to get rid of the disgraceful scramble he had selected George Tanner, a reputable business man, who was not involved. This charge against other applicants has aroused them to fury. Thomas Madden, a lounge manufacturer, who was an applicant, demands to-night that Bynum name the men to whom he referred. Maurice Donnelly, County Recorder, also an applicant, denies the charges as far as he is concerned, and says that he had an understanding that such an offer would secure the office. Bynum intends to settle in Washington, and this is his parting shot at those who have been heretofore his earnest supporters.

THE VOTE IN ESSEX COUNTY, N. J. The Essex County (N. J.) Board of Canvassers canvassed the returns of Tuesday's election yesterday. The total vote for Parker (Rep.) in th Congress District, comprising Newark and West Orange, was 23,116, against 14,746 for English (Dem.). a plurality of 8,370 for Parker. The vote in the Essex County part of the VIIIth Congress District was 7,947 for Fowler (Rep.), and 5,006 for Dunn (Dem.), making Fowler over Dunn 2,941. The city of Orange and the townships of the county are in the VIIIth Congress District. The vote in all of the VIIIth Congress District. The vote in all of Essex County for Surregate was 31,241 for Jackson (Rep.) and 19,689 for Trimble (Dem.), which gives Jackson 11,780 over Trimble. Arrowsmith, Populist, polled 773 votes. Buchanan, Populist candidate for Congress in the VIth District, got 777 votes; Walker, Socialist, 846, and Gray, Prohibitionist, 500. The vote for the Assemblymen was not canvassed yesterday, but the eleven Republican candidates get from 9,000 to close on 11,000 each over the Democratic candidates. Surrogate-elect Jackson will probably be sworn into office on Tuesday next.

ADOLPH SUTRO'S BIG PLURALITY. San Francisco, Nov. 10.-Although Adolph Sutro was the candidate of the Populists for Mayor of San Francisco, it cannot be said that the party Sutro had taken an energetic and aggressive stand on the railroad issue, which was the predominant ore in the campaign, not alone in the city, but the whole State, and to that he owes his victory. Sutro has been elected by a plurality of over 18,000 votes. His complete vote is more than double the entire vote cast for the five other candi-dates.

#### RAILROAD INTERESTS.

A TOLEDO AND ANN ARBOR CIRCULAR. THE SECURITY-HOLDERS ARE URGED TO DE-

The General Reorganization Committee of the has issued a circular to the various classes of bondholders in that company, calling their attention to the fact that its modified plan of reorganization has been indersed by the representatives of the Mount Pleasant, Cadillac and Lake Michigan divisions, and also by holders of the Grand Trunk and North Michigan divisional bonds, as well as by the Stockholders' Committee. In modifying the plan, the committee says it has endeavored to treat all classes of securities as equitably as possible consistent with safety. The situation, however, demands some concessions from all, and prompt action is declared to be essential to preserve the respective interests of all classes of bondholders. This committee considers it only fair to the first mortgage divisional bonds that they should receive 5 per cent and no less, the road being amply able to earn it, under a proper management. Alliances recently entered into by this committee will, it is urged, so benefit the road that under the most adverse conditions the net earnings cannot fail meet the fixed charges and leave a surplus.

The bondholders are urged to deposit their urities without delay with the Farmers' Loan and Trust Company, and the stockholders their certificates with the Atlantic Trust Company. In a circular to stockholders, attention is called to the fact that the committee should be placed in position at once to protect their rights in pending and pressing suits. It has been agreed between the General Reorganization Committee and the Stockholders' Committee that the expenses incurred in defending the stockholders' rights shall not be more than 's of 1 per cent of the par value of the stock. Negotiable receipts will be issued for all classes of excurrities, and these will be iissued on the Stock Exchange as soon as possible.

According to the modified plan of reorganization, each \$1,600 of the present bonds will receive the following in new 5 per cent bonds will receive the following in new 5 per cent bonds and preferred stock. Grand Trunk, \$1,900 in bonds, \$120 in preferred stock; North Michigan, \$2,000 and \$1,900. Lake Michigan, \$750 and \$375, and Consolidated, \$150 and \$1,000. and Trust Company, and the stockholders their

GENERAL HARRISON WINS HIS CASE. Indianapolis, Nov. 10 .- Judges Woods and Baker, of the United States Court, rendered opinions to-day in the suit brought by the Citizens' Street Railway Company to prevent the City Rallway Company, Council, from entering upon or taking possession of pany's charter expired last January, while the company claims the right to occupy the streets in perpetuity. Both opinions find for the Citizens' Company, but do not dispose of the question as to the perpetuity of the Citizens' Company's charter. This is the case in which General Harrison made his great argument, appearing for the winning side.

EXAMINING CHARGES AGAINST VILLARD. Winnipeg, Man., Nov. 10.-The Northern Pacific ceivers and officials are here to look into the harge that Villard made \$360,000 out of the Manibranches. Receiver Payne said last night:

All charges against his management have been dispelled with a single exception. That exception is that he made \$360,000 unlawful profit in connection with the line in Manitoba. A clean bill of health has been granted in all other matters. This parthe large energy of all other matters. It is particular exception is now being investigated. It is sifted down to one particular thing, and I am not prepared to say whether there is anything behind it further than this: That investigation has gone far enough to demonstrate that a large proportion of the \$860,000 can be accounted for legitimately. Certain items being left out which have been discovered will affect the result in Villard's favor.

TO DEEPEN CANADIAN CANALS.

THE FINANCE MINISTER OF THE DOMINION RAISES A LOAN IN ENGLAND.

George E. Foster, the Canadian Minister of Fiwho arrived here yesterday on board the negotiate a loan for the deepening of the Canadian canal, one of the objects being to make the great lakes accessible to the warships of the British Navy. He succeeded in raising a loan of \$2,500,000, Sault Ste Marie Canal on the Canadian side. He has promises of further advances from British synlicates for making the whole route from the Gulf of St. Lawrence to the great lakes an open scaway for British men-of-war. Mr. Foster is much pleased with the results of his visit to England.

SICKNESS OF A THEATRICAL MANAGER. The condition of John Russell, the theatrical manager, is causing his friends much anxiety. He and is much in need of a rest, which he has been rejuctant to take on account of the demands of his business. His physicians have warned him however, that he is in danger of a serious breakdown, and he consented yesterday to go to a sani-

A STORM OF SHORT DURATION. Many citizens were awakened at daybreak yester-

thunder and the flash of lightning. The storm was of short duration, but all whom it awoke thought sailor's warning." It did not prove to be a true proverb in this case, however, for the dawn finally dispelled the clouds, the squall was swept out seaward somewhere, and the rest of the day was clear and delightful. and delightful.

The prospects are that to-day will be coo; and fair. The chilliness in the air last night, however, was a further warning of the rapid approach of winter.

THE NEW FRENCH SECRETARY OF EMBASSY. Washington, Nov. 10.-The first intimation which the French Embassy received of the appointment of Paul Le Faivre as first secretary came through press dispatches this morning. M. Le Faivre is now in Paris, but he was formerly well known in Washington, where he served ten years ago as third secretary of the Embassy. Following the cus tom of rotation in office, he was transferred from Washington to Athens and subsequently to Con washington to Athens and subsequently to Con-stantinople and Madrid. He was promoted to a sec-ond secretaryship six years ago and sent to Lima, where he served as Chargé d'Affaires for some time. A year ago he went to Rio Janeiro as first secretary of the Legation. His father was for many years French Consul-General in New-York.

A RECTOR'S RITUALISTIC IDEAS OPPOSED. Kingston, N. Y., Nov. 10 (Special).-There is considerable commotion in St. John's parish, this city, by reason of the ritualistic ideas of the Rev. Louis Watson, the young rector, which promises to reach a climax to-morrow. At a meeting of the vestry last evening the rector asked that certain changes in the church be made, which were authorized by that body after a lively discussion. The changes are in conformity with the purpose of the rector to hold full ritualistic services, such as he now holds at the Holy Cross Chapel, on Pine Groveave. At the morning service to-morrow he has summoned all his people to hear an announcement on this subject. As a large part of his people are decidedly opposed to such radical High-Church doctrines, a rupture of church relations seems inevitable. thorized by that body after a lively discussion.

#### Sealskin Coats.

China or Japan Seal, and while they are London dyed and quite as handsome in appearance as the genuine Alaska or Russian Coast Seal they will not wear more than two or three seasons, and will commence to look shabby and wear off on the edges after being worn one season, whereas Alaska Seal will wear from eight to ten years. It is quite difficult for one who is not a judge

to tell the difference. It is only after being worn a short time that the poor material will show. A China Seal Coat, with large sleeves, high flaring collar, new style skirt and fashionable length, can be sold at a profit for \$125 to \$150, whereas the Russian Coast Seal cost from \$250 to \$300 and the Alaska Seal from \$300 to \$400. Jackets of Pup Seal, \$225.

Hudson Bay Otter, decidedly the handsomest and most serviceable, costs only \$50 a garment more than Alaska Seal.

#### Black Persian.

The best is dressed and dyed in Germany. Neither England nor America dyes Persian skins well. All attempts up to date have been unsuccessful. The American dyed lack the beautiful gloss of the German dyed, the pelt is dressed in such a manner that the dyo makes it brittle, consequently will not, wear more than two or three seasons, whereas the German-dyed Persian skins will wear from six to eight years and

always retain their pristine beauty. There are a great many articles manufactured from American - dyed Persian skins offered in this market. They can be purchased at about onehalf the cost of the genuine German dyed. I do not sell them. Have a large stock of the German-dyed Persian Lamb skins, also the new styles Coats, Capes, Muffs, &c., at lowest possible
